

## ILDIKO HAMMOND

### ARTIST STATEMENT

Art for me, is a journey that is meditative, therapeutic and intuitive, flowing with the spontaneity of the creative process.

I use forms, textures, mediums, colours, patterns and objects to convey my ideas plus emotions, and as symbols and metaphors in my figurative works. The themes I am drawn to are mysticism, good vs evil, dream-state, intense and disparate emotional and mental states, our interactions with each other and our connections to the divine.

It is the human essence that I am fascinated with in my work, as I believe it is universal, and it connects us all on this planet.
